EXTEND BOILER LIFE**

- ✓ Regularly Scheduled Inspections
- ✓ Free Parts/Labor on Most Items*¹
- ✓ Boilermate Eco-Friendly Solution*²
- ✓ Pressure Vessel Guarantee*²

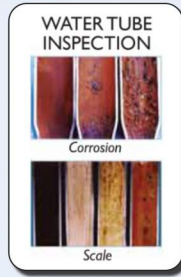

We've got you covered!

Inspections Regular Inspections Matter

Let highly trained and skilled inspection personnel protect your Miura steam boiler by anticipation and preventing problems before they arise.

Regular inspection can anticipate and correct situations before they become problems. By checking waterside and fireside conditions, your Miura boiler will continue to operate at peak performance.

Water Sampling Made Easy

Miura's MMP+ customers can simply mail a small sample of water to our Canadian water lab each month. Miura will analyze the water and furnish the customer with a thorough monthly report. Customers can avoid expensive on-site maintenance costs and ensure their system continues to function at peak efficiency.

Guarantees Our Guarantee

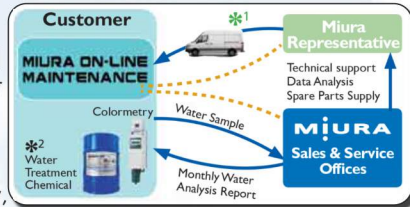

By choosing Miura's MIC or MMP/ MMP+ maintenance & inspection program, you'll be making a wise decision assuring worry-free boiler operation. We guarantee it.

Our guarantee covers most parts and labor costs, as well as guaranteeing the Pressure Vessel (with the MMP+ program only) against corrosion. By selecting our maintenance & inspection program, you enlist Miura's expert stewardship over the long term reliable and efficient operation of your boilers.

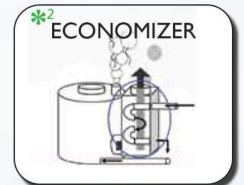

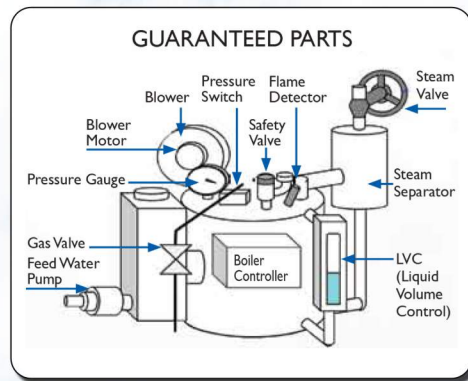

Maintenance Maintenance Makes the Difference

A well-maintained Miura boiler provides the highest efficiency throughout the life of the system and protects this important investment.

Maintenance is an essential part of keeping Miura boiler running like the day you bought it. From water analysis, to online support systems, to overall efficiency, Miura boiler maintenance ensures that you'll save downtime while saving energy costs. Plus, most parts are covered for free, and emergency service is available should you need it.*
